

ESSEQUIBO MUSIC

Education Programme

Essequibo Music

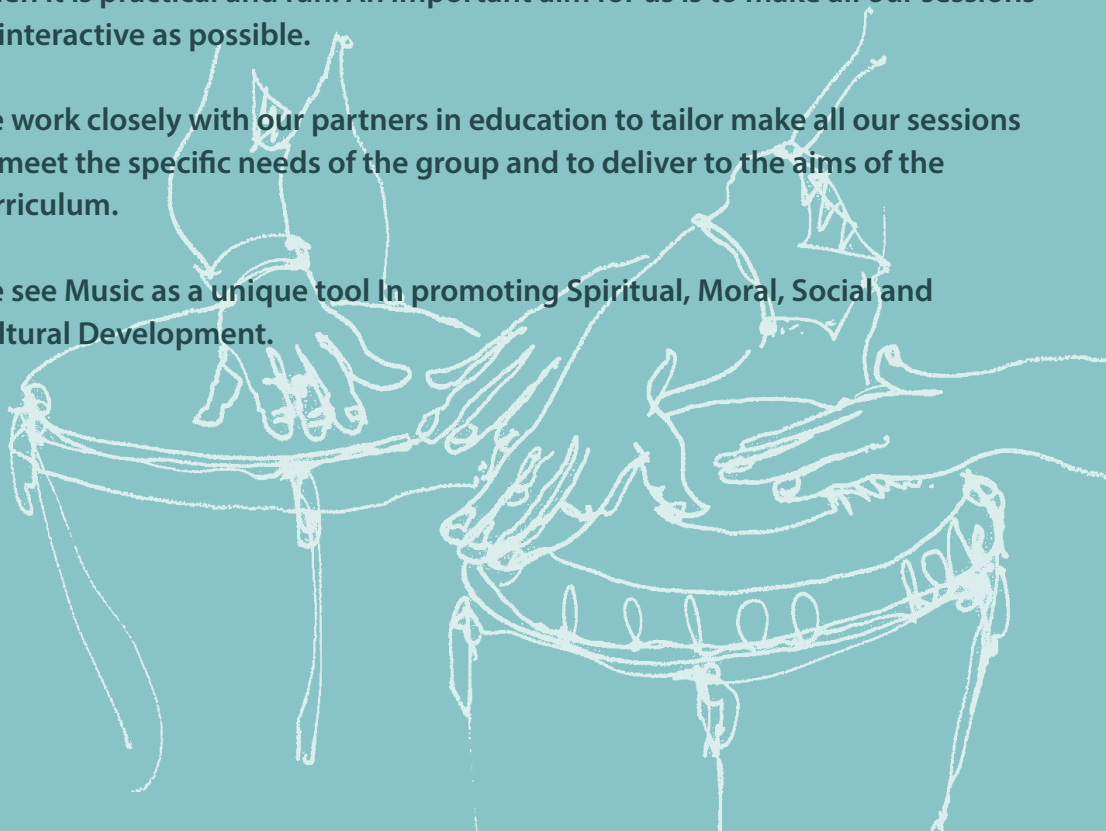

Essequibo Music is a collective of exciting talented contemporary British artists, storytellers, poets, musicians and inspirational workshop leaders, working in the field of education, music and performing arts. Led by international flautist, composer and educator Keith Waithe

Our Approach

As an Arts based organization we seek to teach using the medium of the arts. We believe that the arts provides a unique opportunity to break down barriers, and broaden horizons. We are also aware that learning is far more effective when it is practical and fun. An important aim for us is to make all our sessions as interactive as possible.

We work closely with our partners in education to tailor make all our sessions to meet the specific needs of the group and to deliver to the aims of the curriculum.

We see Music as a unique tool in promoting Spiritual, Moral, Social and Cultural Development.
